1. SoP for using LearningPlex (Learning Management System)

A. Purpose

The purpose of this SoP is to explain how the LearningPlex (LMS) should be used by students, teachers, and all relevant stakeholders. It helps everyone follow the same process for managing courses, sharing study materials, submitting assignments, conducting quizzes, and communicating through the LMS.

B. Scope

This SoP applies to all students, teaching, and non-teaching staff who use the LearningPlex. It covers activities such as managing courses, accessing courses, uploading learning materials, submitting assignments, conduct quizzes etc.

C. What is Learning Management System (LMS)?

- LMS is an online platform used by universities and colleges to manage teaching and learning activities. It provides a common place where students and teachers can communicate, share study materials, submit assignments, and keep track of academic activities.
- Through an LMS, students can access notes, presentations, videos, assignments, quizzes, and other learning resources from anywhere using a computer or mobile phone. Teachers can use it to upload study materials, give assignments, conduct online tests, share announcements, and provide feedback to students.
- An LMS makes the learning process more organized, flexible, and accessible. Students do not always have to depend on printed notes or classroom discussions because important course-related information can be available online.
- Another important advantage of an LMS is that it supports learning beyond the traditional classroom. Students can revisit learning materials whenever they need, learn at their own pace, and use online resources for revision and preparation. This makes the learning process more flexible and encourages students to take greater responsibility for their own learning.

D. Main Features of LMS

- *Course Materials:* Students can access notes, PDFs, presentations, videos, and other resources.
- *Assignments:* Teachers can post assignments and students can submit their work online.
- *Quizzes and Tests:* Online quizzes and tests can be conducted through the LMS.
- *Announcements:* Teachers and universities can share important updates with students.
- *Communication:* Students and teachers can communicate through messages, discussions, or forums.
- *Progress Tracking:* Students can check their completed activities, grades, and learning progress.
- *Easy Access:* Learning materials can be accessed anytime and from different devices.

E. GUIDE LMS

- GUIDE (GSFCU's Unified Internet Based eEducational Eco-System) was developed and launched in 2022 as a collaborative initiative of GSFC University and the Gujarat Institute of Disaster Management (GIDM). The platform was developed using the Open edX platform to create a unified digital environment for teaching and learning. As part of this initiative, 28 courses were developed and made available through GUIDE, providing students with structured course content and learning resources in an online format.
- The development of GUIDE marked an important step towards adopting digital learning practices at the University. It brought courses, learning materials, assignments, and assessments together on a single platform, making academic activities more organized and accessible. GUIDE helped the University move towards a more technology-enabled and flexible learning environment, supporting both students and faculty in their academic activities.

F. Migration GUIDE LMS to LearningPlex

- The University previously used GUIDE LMS, a collaborative Learning Management System (LMS) associated with GIDM (Gujarat Institute of Disaster Management) and GSFC University, and based on the Open edX platform. To provide a better and more user-friendly learning experience, the University has now migrated from GUIDE LMS to LearningPlex, which is based on the Moodle platform.
- The migration was carried out to address the growing requirements of the University's teaching and learning activities and to provide a more flexible, organized, and easy-to-use platform for students and faculty. LearningPlex offers a wider range of features that support the effective management of courses, learning resources, assessments, and student activities, making it better suited to the University's current academic needs.
- LearningPlex offers easy-to-use features for managing courses, study materials, assignments, quizzes, grades, and communication. The new platform brings these activities together in one place, helping make teaching and learning more organized, efficient, and accessible for both students and teachers.

G. Advantages

- i.** Easy-to-use interface for students and teachers.
- ii.** Better course and content management.
- iii.** Simple assignment submission and grading process.
- iv.** Improved quiz and assessment features.
- v.** Faster communication through announcements, forums, and messaging.
- vi.** Easy integration with third-party tools and plugins.
- vii.** Flexible course customization to meet academic requirements.
- viii.** Scalable platform that can support a growing number of users and courses

H. Limitations

Quiz conduction and proctored assessment activities are supported only on laptops and desktop computers to ensure a secure and standardized examination environment. Mobile devices are not supported for these activities.

I. About LearningPlex

- LearningPlex is the University's Learning Management System (LMS), designed to provide a single platform for managing academic and learning activities. It gives students and teachers a common online space to access courses, share learning materials, submit assignments, conduct quizzes, view grades, and communicate important information.
- LearningPlex makes learning more organized, convenient, and accessible. Students can access their course materials and academic activities from anywhere using a computer, laptop, or mobile device. Teachers can upload resources, create assignments and quizzes, provide feedback, and keep students updated through the platform.
- LearningPlex is built on the Moodle platform, which provides a flexible and user-friendly environment for online learning. By bringing different academic activities together in one place, LearningPlex helps students stay connected with their courses and makes it easier for teachers to manage their teaching activities.

J. Roles and Responsibilities

a) Senior Management

- i. Manage course categories, and institutional academic structure.
- ii. Monitor LMS usage, academic reports, and system-wide activities.
- iii. Ensure compliance with university policies and Moodle governance.

b) Dean / Head of Department (HOD) / Program Coordinator (PCs)

- i. Create, manage, and organize courses.
- ii. Review and approve course creation requests.
- iii. Assign courses to faculty members and monitor course delivery.

c) Teaching Staff / Visiting Faculty / Adjunct Faculty / Lab Assistant / Lab Instructor

- i. Develop and manage course content and learning resources.
- ii. Conduct quizzes, assignments, and other learning activities.
- iii. Collect student feedback and facilitate academic discussions using forums and other Moodle communication tools.

d) Students

- i. Access enrolled courses and learning resources.
- ii. Participate in learning activities and assessments.
- iii. Submit assignments and complete quizzes.
- iv. View grades, feedback, and course progress.

2. Analytics of LearningPlex Usage through Dashboard

The LearningPlex Dashboard provides real-time insights into LearningPlex usage and user activity. It enables senior management to monitor the number of online users based on their roles, as well as view each user's current status and last access time for effective system monitoring.

3. Manage Courses

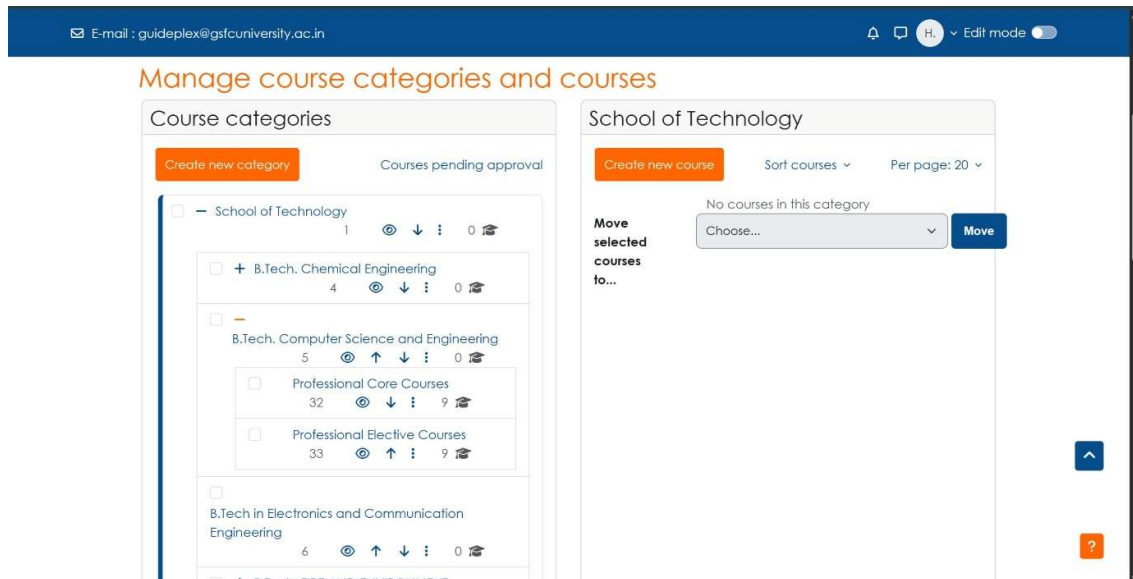

- Click on **Manage Courses**

- Now manage the course as per category and the subcategory

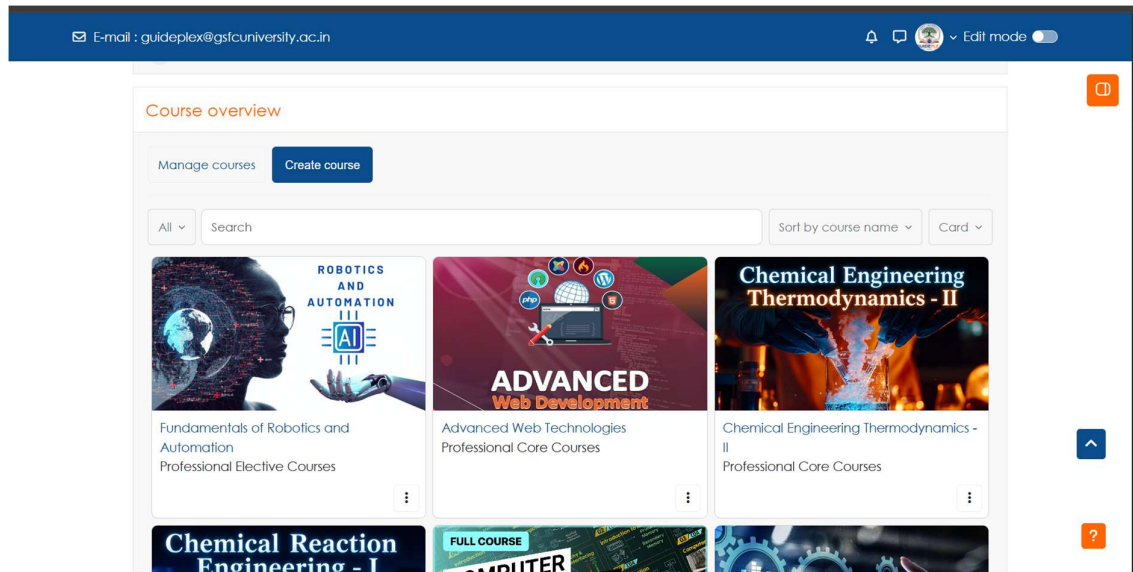

- Use + icon to expand and use three dots to have different editing options

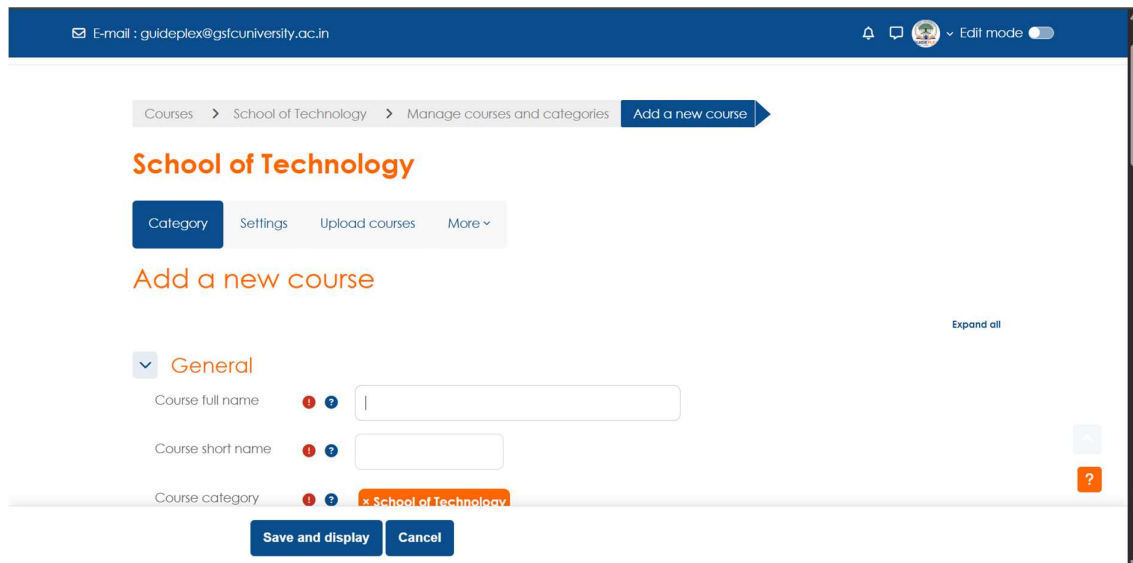

4. Course Creation

- Go to **Create Course**

- Create the course as per your requirements

LearningPlex User Manual

- Select the most appropriate course category

The screenshot shows the 'Course creation' form in LearningPlex. The 'Course category' dropdown is open, displaying a list of categories under the 'School of Technology' header. The categories include:

- School of Technology / B.Tech. Chemical Engineering
- School of Technology / B.Tech. Chemical Engineering / Professional Core Courses
- School of Technology / B.Tech. Chemical Engineering / Professional Elective Courses
- School of Technology / B.Tech. Computer Science and Engineering
- School of Technology / B.Tech. Computer Science and Engineering / Professional Core Courses
- School of Technology / B.Tech. Computer Science and Engineering / Professional Elective Courses
- School of Technology / B.Tech. in Electronics and Communication Engineering
- School of Technology / B.Tech. FIRE AND ENVIRONMENT
- School of Technology / B.Tech. FIRE AND ENVIRONMENT / Professional Core Courses

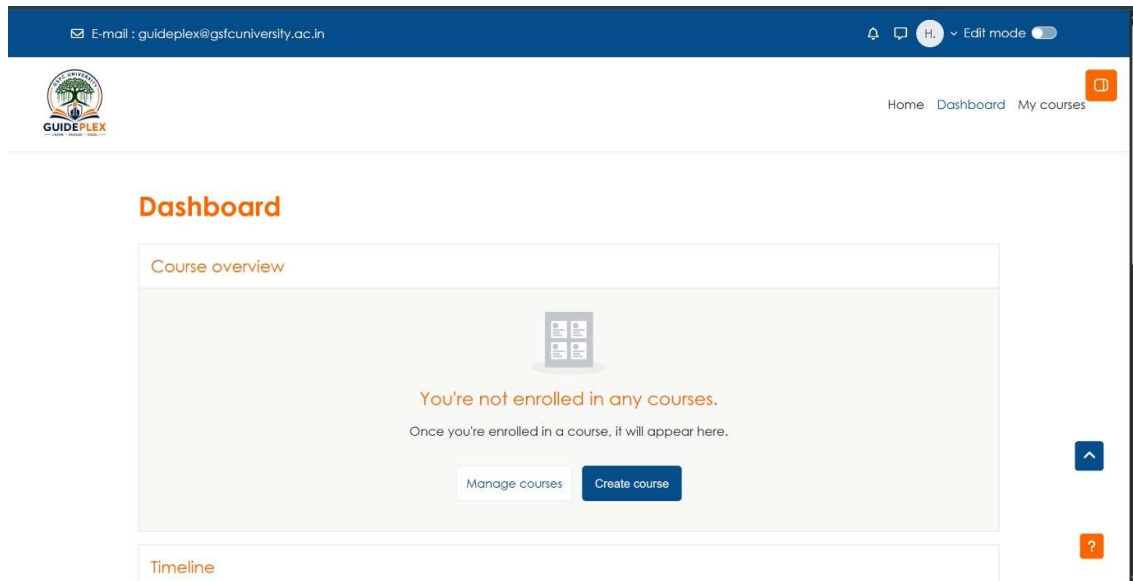

At the bottom of the form, there are buttons for 'Save and display' and 'Cancel'.

- After completion click on **Save and Display**

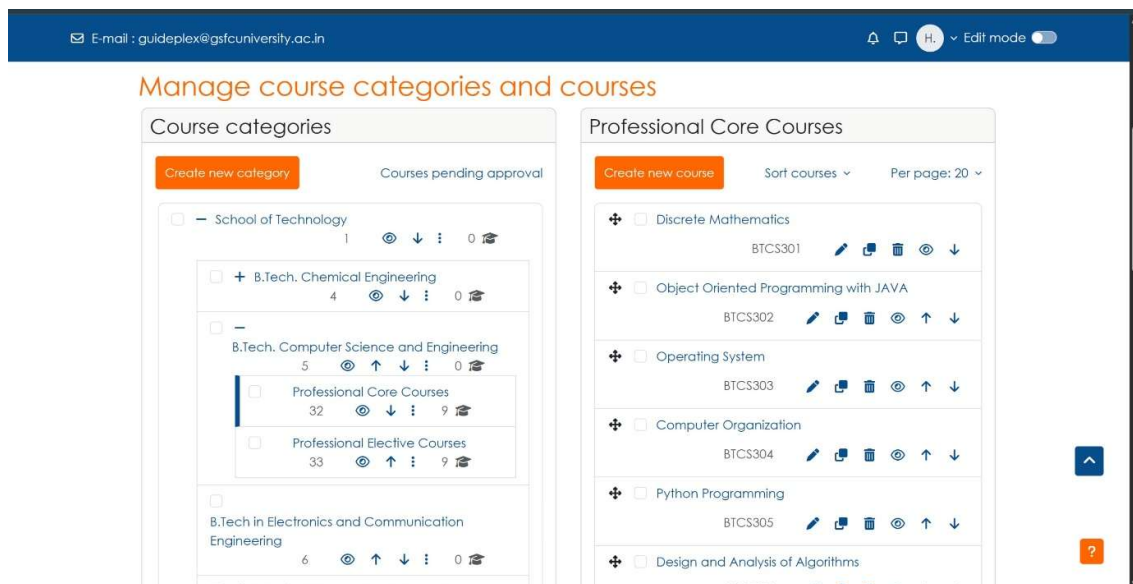

The screenshot shows the course page for 'Fundamentals of Robotics and Automation'. The page has a navigation bar with links: Home, Dashboard, My courses, and Admin Area. Below the navigation bar, there is a tabbed interface with the following tabs: Course, Settings, Participants, Grades, Activities, and More. The 'Course' tab is selected, showing a 'General' section with a 'Collapse all' button. Below the 'General' section, there are two 'New section' buttons. The page also features a 'GUIDEPLEX' logo and a 'Course summary' section.

5. How to add user (participants)?

- Go to **Manage course**

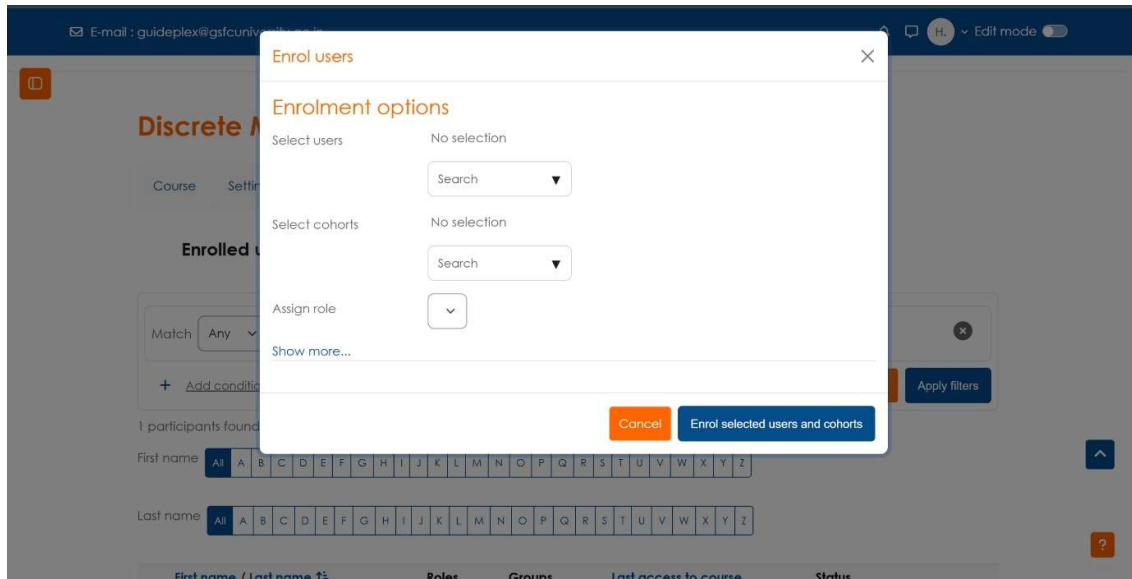

- Select any of the courses

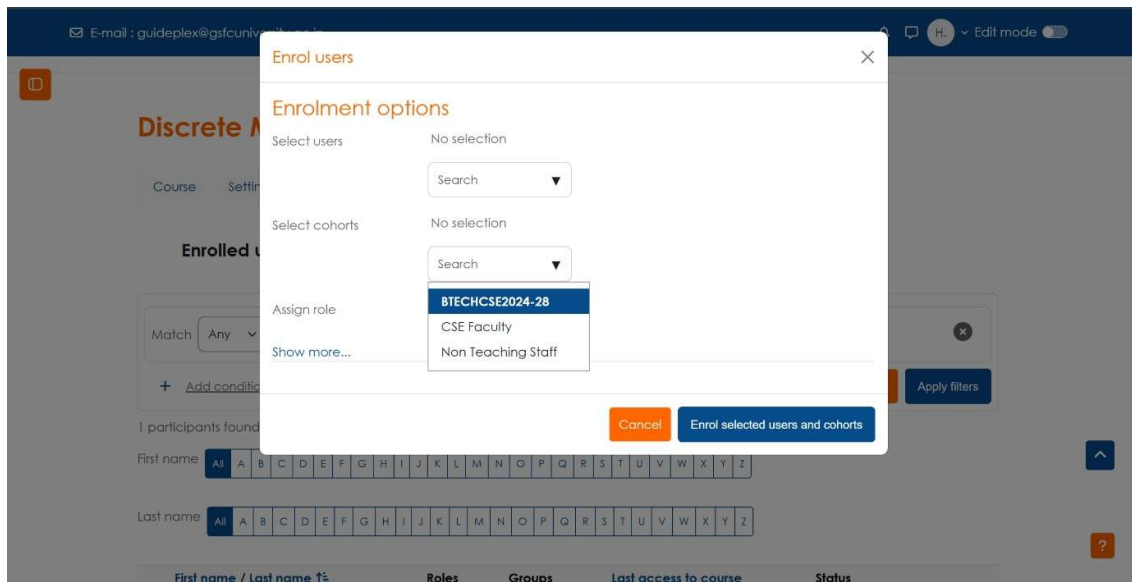

a. Manual Enrolment

- Click on **Participants** and go to **enrol users**

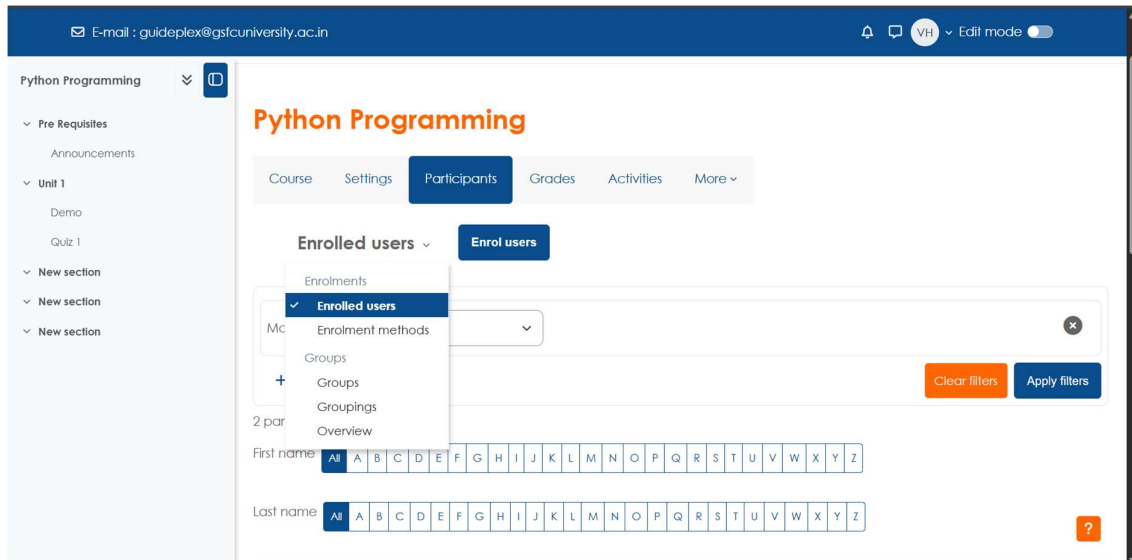

- Enrol user one by one using **Select users** option or / and enrol many users using predefined **cohorts** and then click on **Enrol selected users and cohorts**

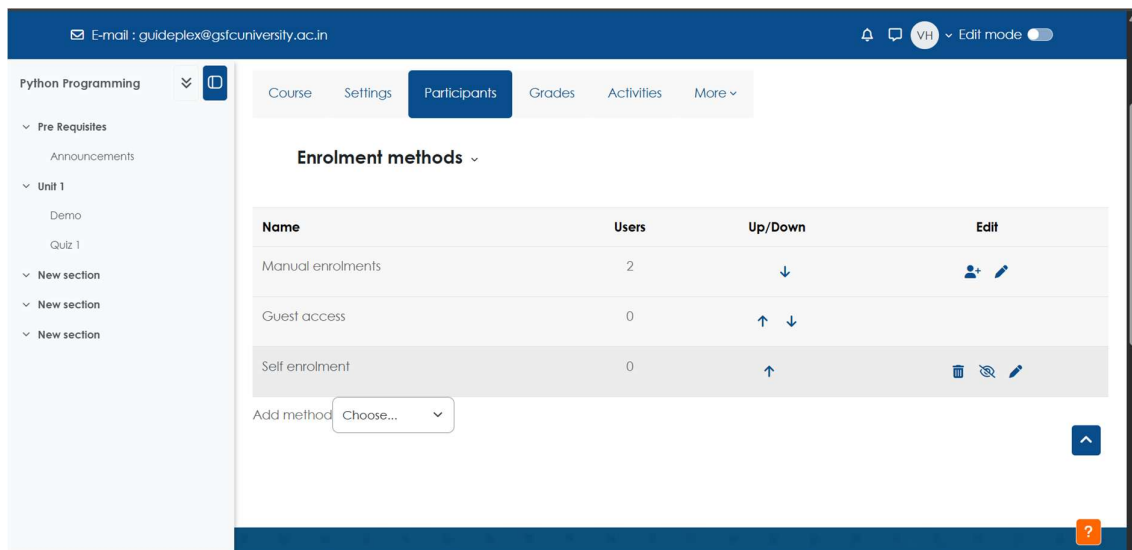

b. Enrolment Using self-enrolment key

- Click on **Participant** and click on **Enrolled users** dropdown

The screenshot shows the 'Python Programming' course page in the 'Participants' tab. The 'Enrolled users' dropdown menu is open, displaying options: Enrolments, Enrolled users (selected), Enrolment methods, Groups, Groupings, and Overview. Below the dropdown, there are filters for 'First name' and 'Last name' with alphabetical selection buttons (A-Z). A 'Clear filters' button and an 'Apply filters' button are also visible.

- Select enrolment methods

The screenshot shows the 'Enrolment methods' table in the 'Participants' tab. The table lists three methods: Manual enrolments, Guest access, and Self enrolment. Each row shows the number of users and options to add or remove users. Below the table is an 'Add method' dropdown menu.

Name	Users	Up/Down	Edit
Manual enrolments	2	↓	
Guest access	0	↑ ↓	
Self enrolment	0	↑	

Add method: Choose...

- Click on the edit button of **self-enrolment** and edit the necessary fields like enrolment key which will going to be used to Self-enrol in that course, enrolment duration etc. and then click on save changes.

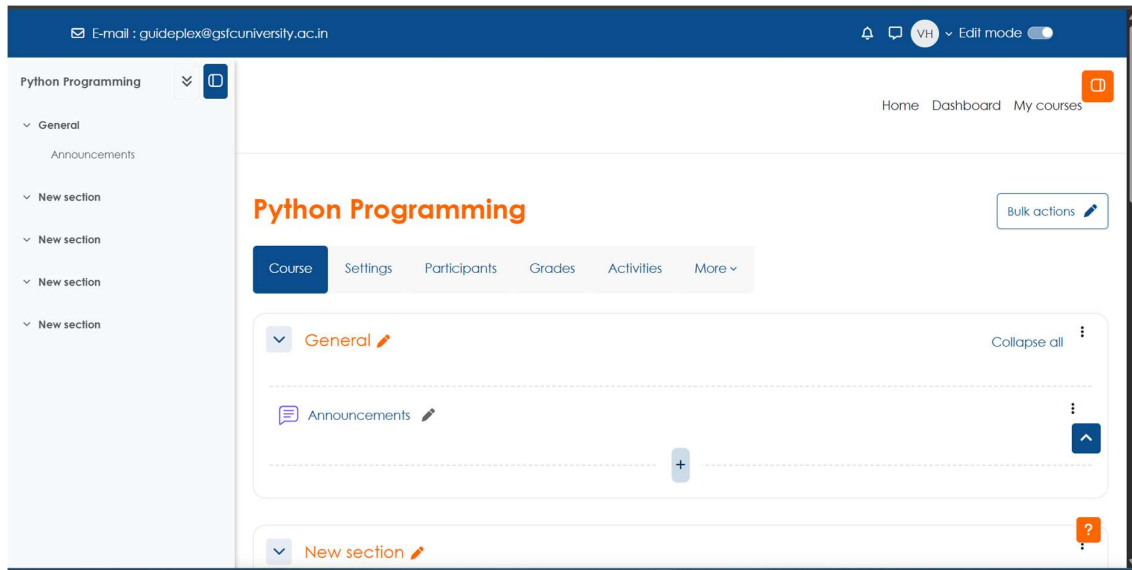

The screenshot shows the 'Self enrolment' configuration page in the LearningPlex interface. The top navigation bar includes the email 'E-mail : guideplex@gstcuniversity.ac.in', a user profile icon 'VH', and an 'Edit mode' toggle. The left sidebar shows a course structure for 'Python Programming' with sections like 'Pre Requisites', 'Unit 1', and 'New section'. The main content area is titled 'Self enrolment' and contains the following fields:

- Custom instance name:
- Keep current self enrolments active:
- Allow new self enrolments:
- Enrolment key: (with a help icon and a lock icon)
- Use group enrolment keys:
- Default assigned role:
- Enrolment duration: ☐ Enable
- Notify before enrolment expires:
- Notification threshold:

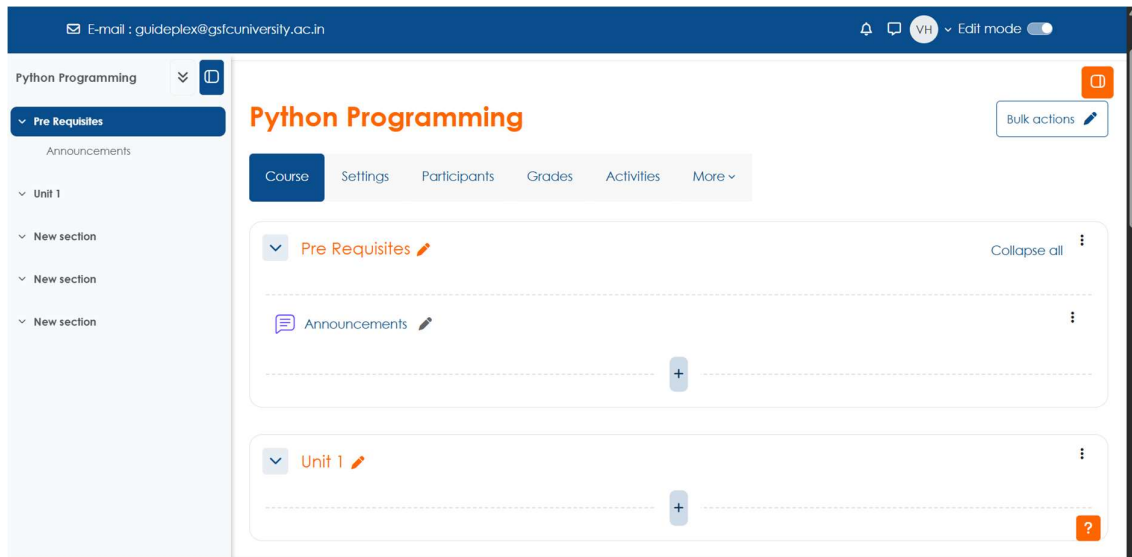

On the right side of the form, there are two buttons: a blue 'Save' button and an orange 'Help' button with a question mark icon.

6. How to edit a course?

- Go to the Course and Click on **Edit Mode**.

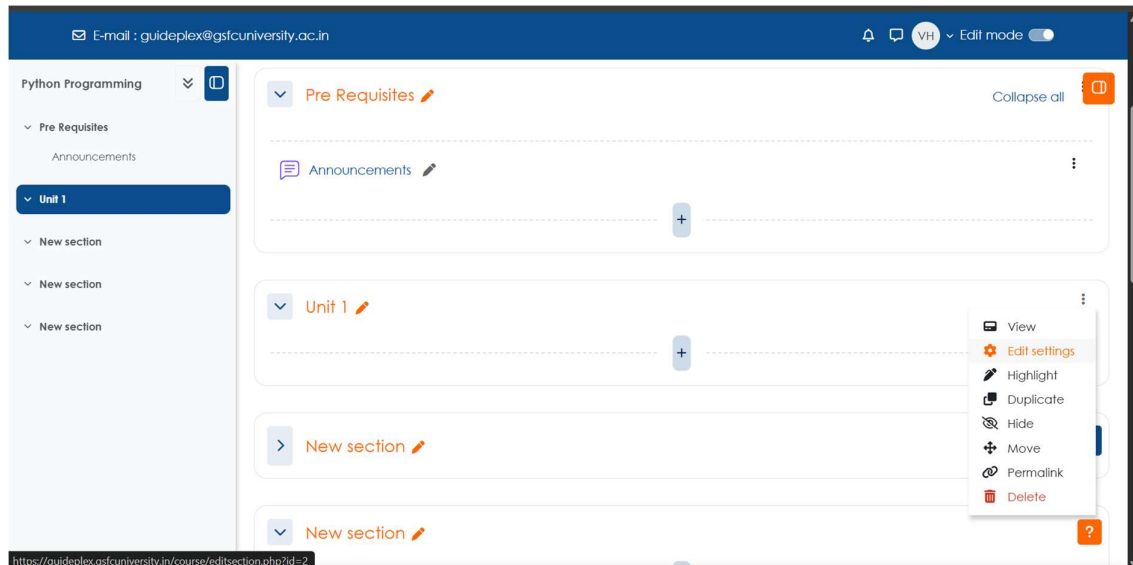

- Click on the edit icon and write the heading to the Section and press Enter

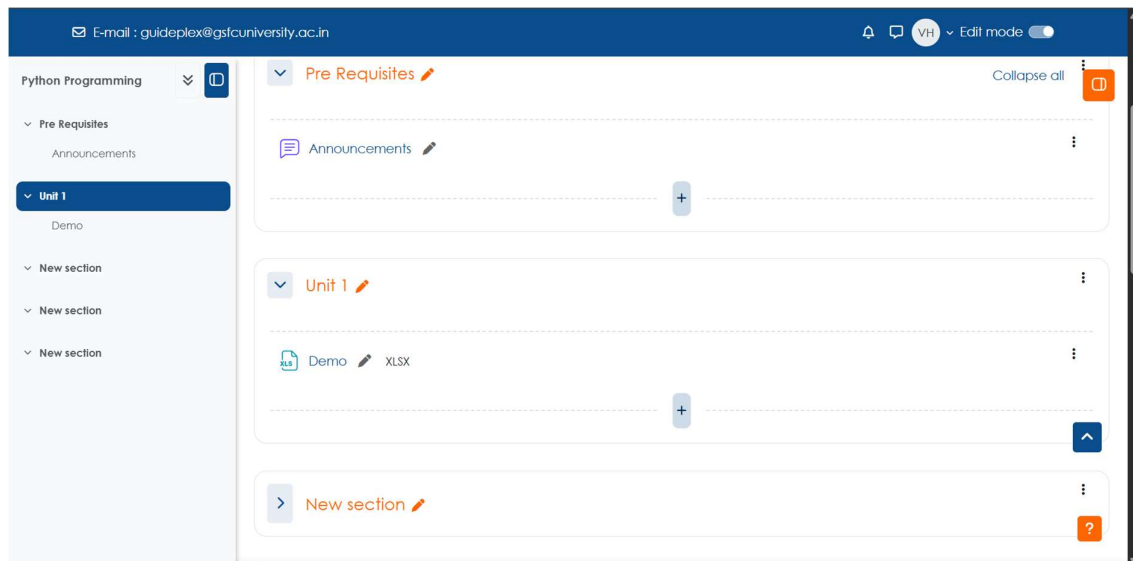

LearningPlex User Manual

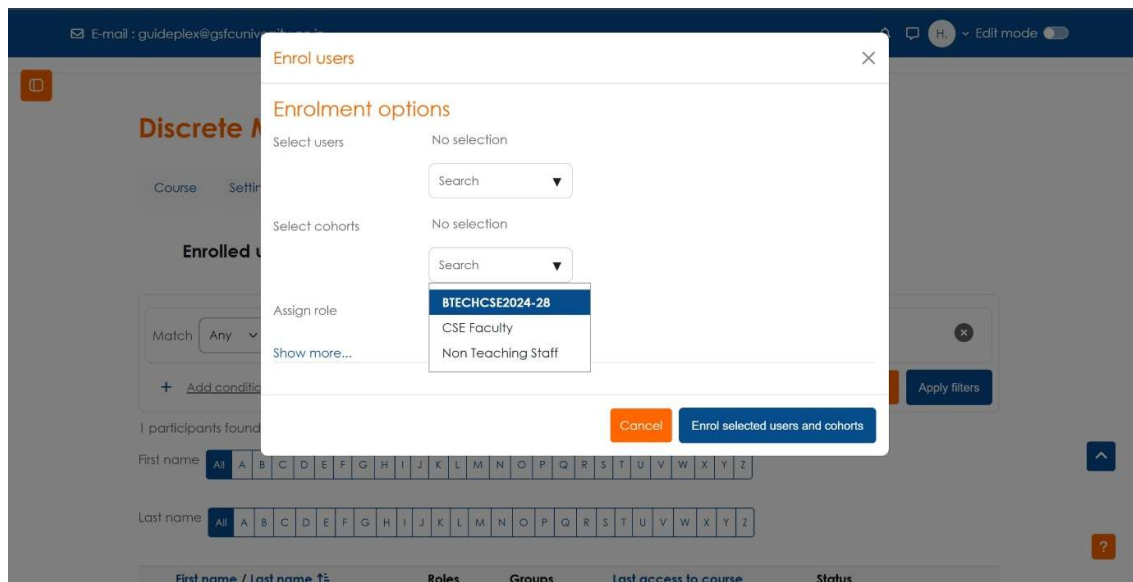

- To edit the setting of any of the sections or the activity click on three dots and after editing click on save changes

- Using the + icon we can add **subsections** or any of the **activity or resource**.
For example: any sort of file.

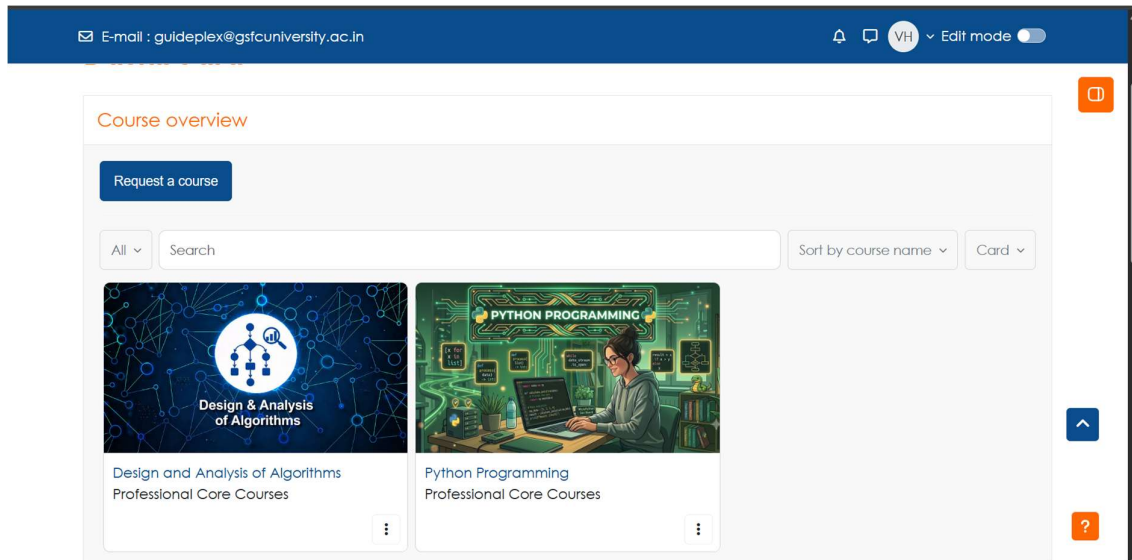

- Go to **Participants** to enrol users to the course with either of the options.

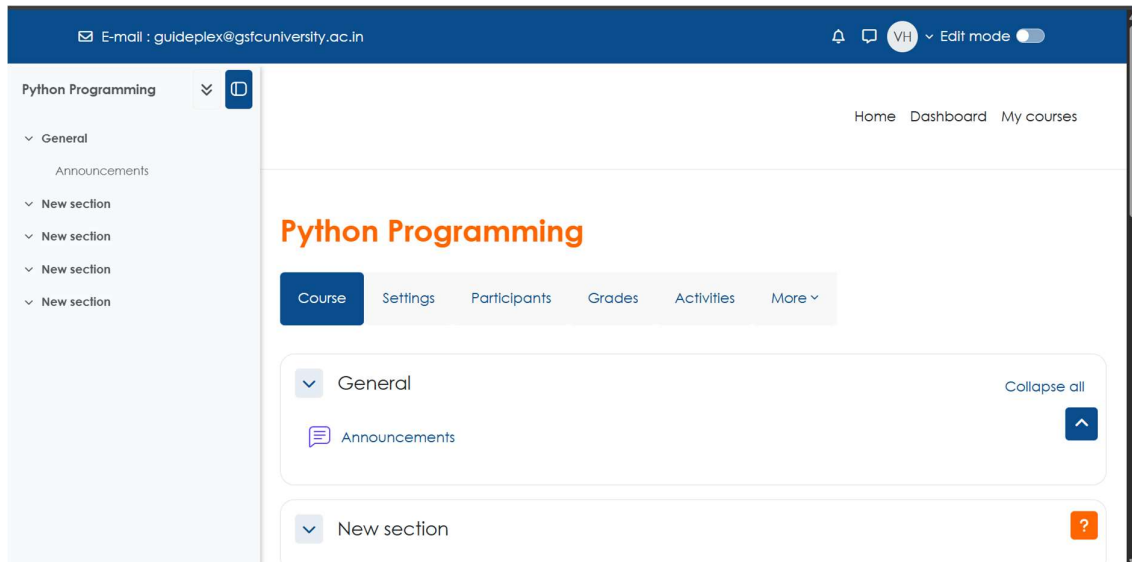

7. How to add any Activity or Resource?

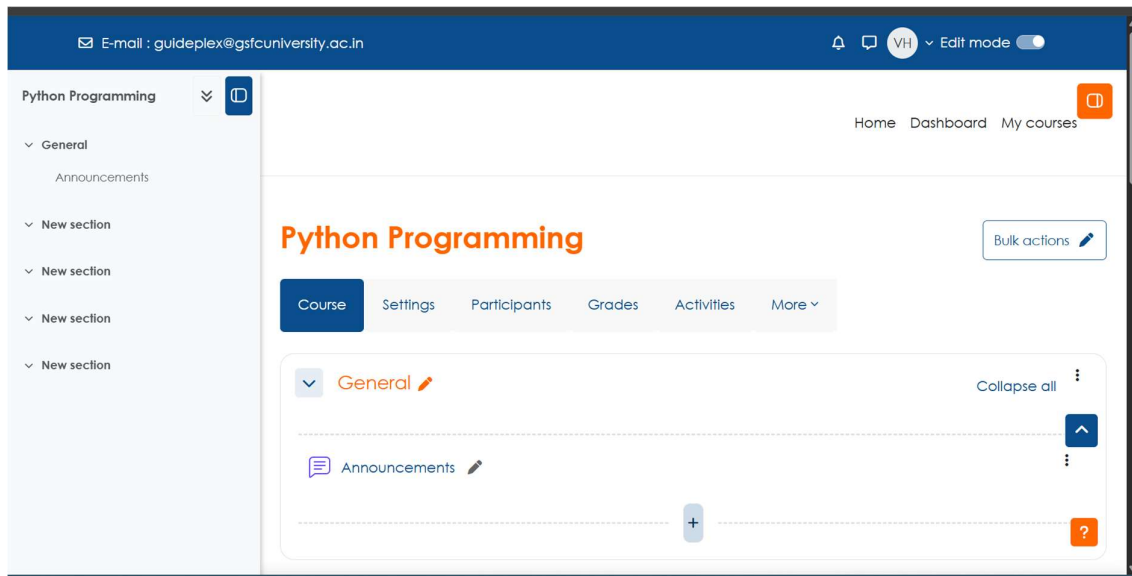

- Go to the one of the courses where you want to add any **Activity or Resource**.

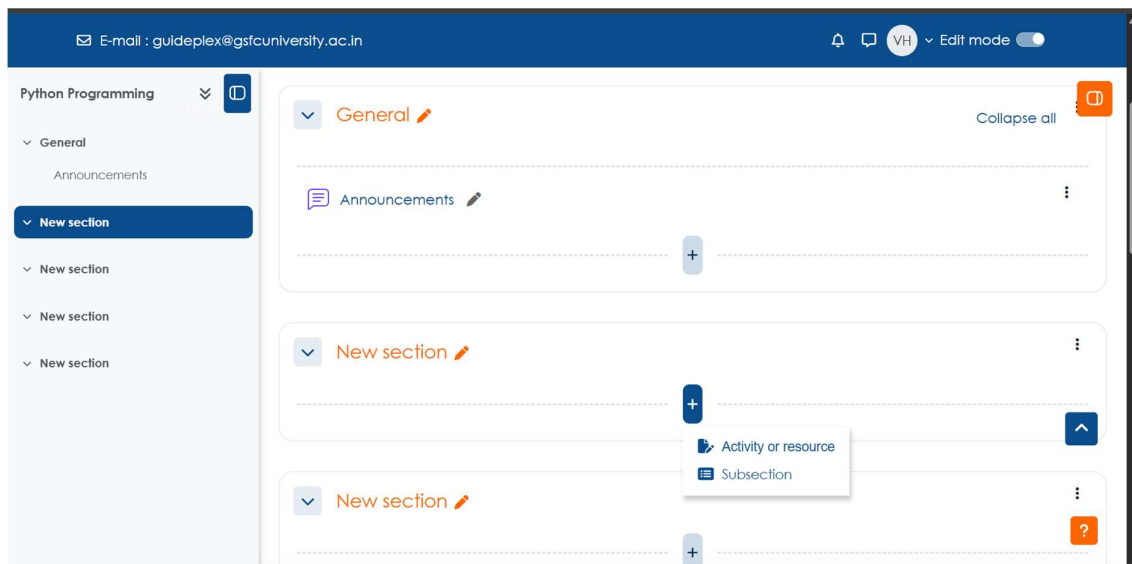

- Go to **Edit mode** (at the top right corner)

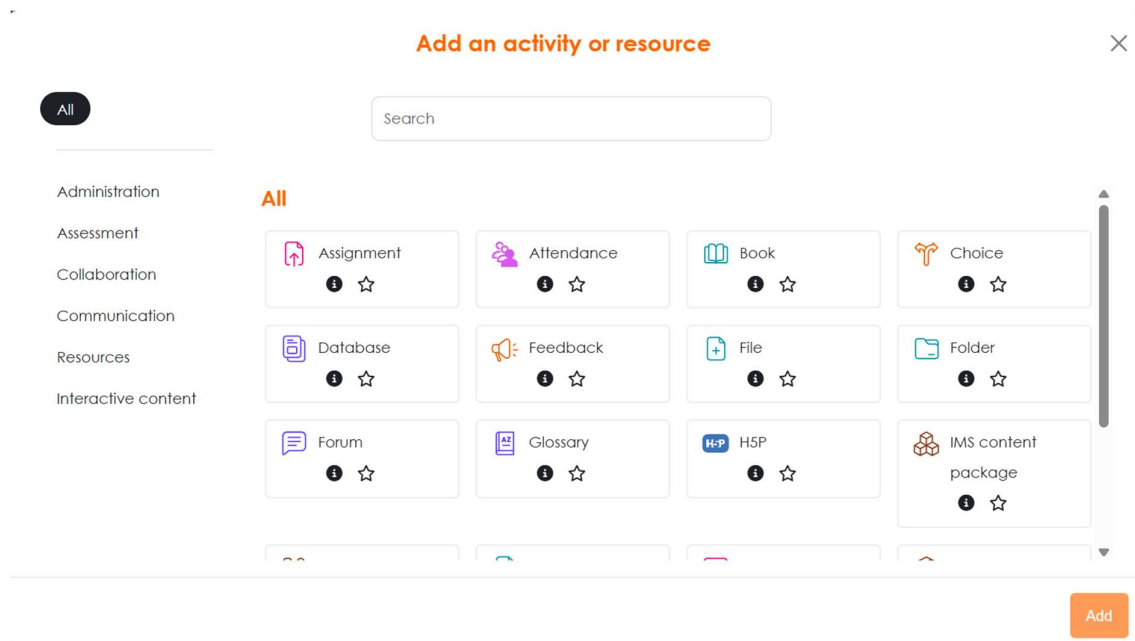

- After clicking on **Edit mode** it will look like this

- Click on the + icon under any of the sections and select **Activity & Resource**

- Select the **Activity or Resource** and Click **Add**

8. Quiz Creation

Firstly, add quiz from Activity or resource (Explained on page no. 17)

- Now configure the **Quiz** as per the need.

The screenshot shows the 'New Quiz' interface. On the left is a sidebar with 'Python Programming' and a list of 'New section' links. The main area has tabs for 'Course', 'Settings', 'Participants', 'Grades', 'Activities', and 'More'. The 'General' tab is active, showing a 'Name' field with 'Quiz 1' and a 'Description' field with 'Unit 1 Quiz'. A rich text editor toolbar is visible above the description field. At the bottom, there are three buttons: 'Save and return to course', 'Save and display', and 'Cancel'.

- Safe Exam Browser** Setting in the Quiz

The screenshot shows the 'Appearance' tab of the quiz configuration. The 'Safe Exam Browser' section is expanded, showing a dropdown menu set to 'No'. Other expandable sections include 'Extra restrictions on attempts', 'Overall feedback', 'Common module settings', 'Restrict access', 'Completion conditions', and 'Tags'. At the bottom, there are three buttons: 'Save and return to course', 'Save and display', and 'Cancel'.

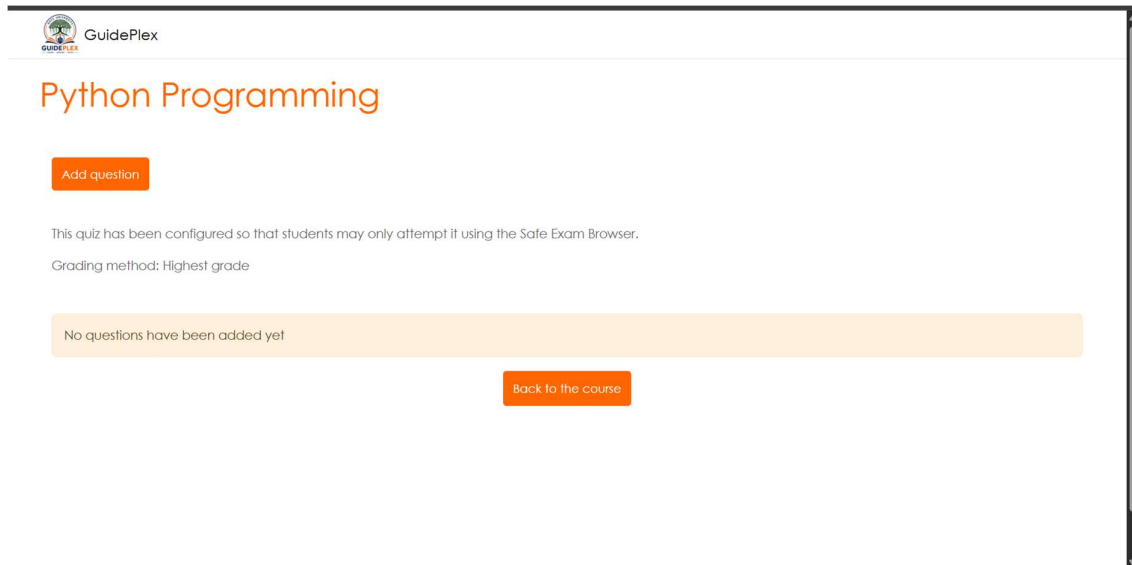

- a. If want to take the quiz more secure and fair manner then Select **Yes – Configure Manually** otherwise keep it No.

The screenshot shows the 'Safe Exam Browser' configuration page. The left sidebar is titled 'Python Programming' and includes a 'General' section with 'Announcements' and several 'New section' links. The main content area is titled 'Appearance' and contains the 'Safe Exam Browser' settings. The settings include: 'Require the use of Safe Exam Browser' (set to 'Yes – Configure manually'), 'Show Safe Exam Browser download button' (set to 'Yes'), 'Show Exit Safe Exam Browser button, configured with this quit link' (empty), 'Ask user to confirm quitting' (set to 'Yes'), 'Enable quitting of SEB' (set to 'Yes'), and 'Quit password' (set to 'Click to enter text'). At the bottom, there are three buttons: 'Save and return to course', 'Save and display', and 'Cancel'.

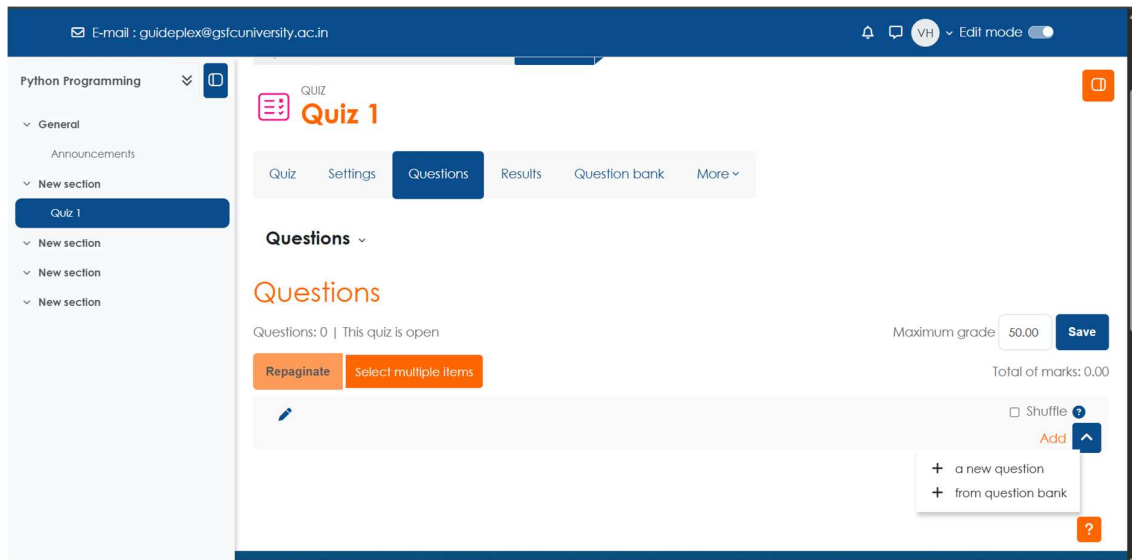

- b. Write a **Quit Password** to prevent any student to exit the Safe Exam Browser before completing the Quiz. The password will only be known to the Quiz creator.

The screenshot shows the 'Safe Exam Browser' configuration page, specifically the 'Quit password' field. The left sidebar is the same as in the previous screenshot. The main content area shows the 'Quit password' field with a password icon and a 'Click to enter text' prompt. Below it are several other settings: 'Enable reload in exam' (set to 'No'), 'Show SEB task bar' (set to 'No'), 'Enable audio controls' (set to 'No'), 'Allow browser access to camera' (set to 'No'), 'Allow browser access to microphone' (set to 'No'), 'Enable spell checking' (set to 'No'), and 'Enable URL filtering' (set to 'No'). At the bottom, there are three buttons: 'Save and return to course', 'Save and display', and 'Cancel'.

- After all the configuration Click on **Save and Display** and go to **Add Question**

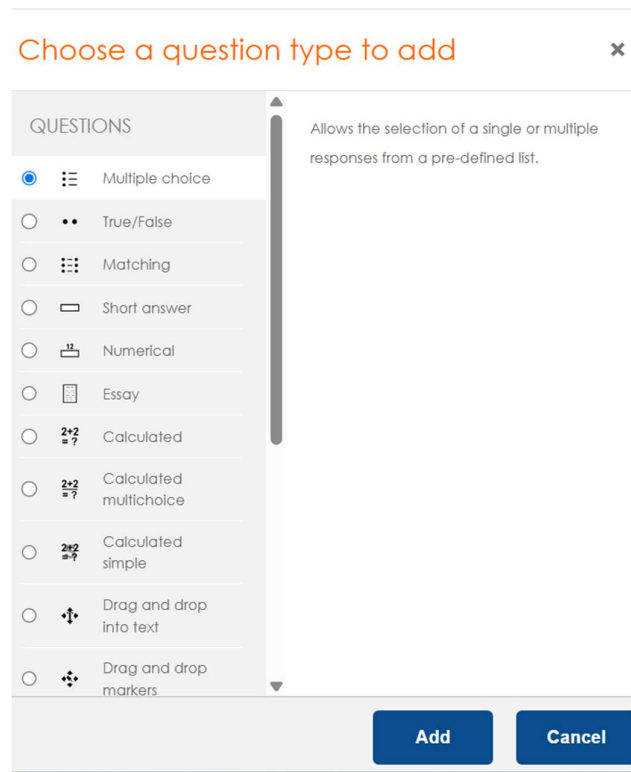

- Click on **Add** and then a **new question**

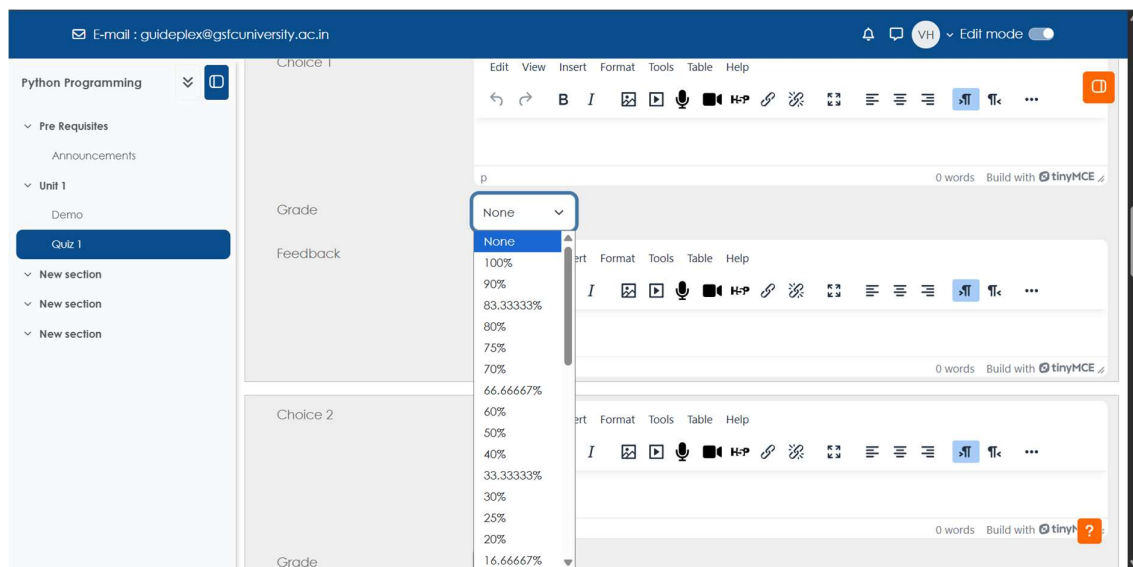

LearningPlex User Manual

- Select the type of the question and click **add**

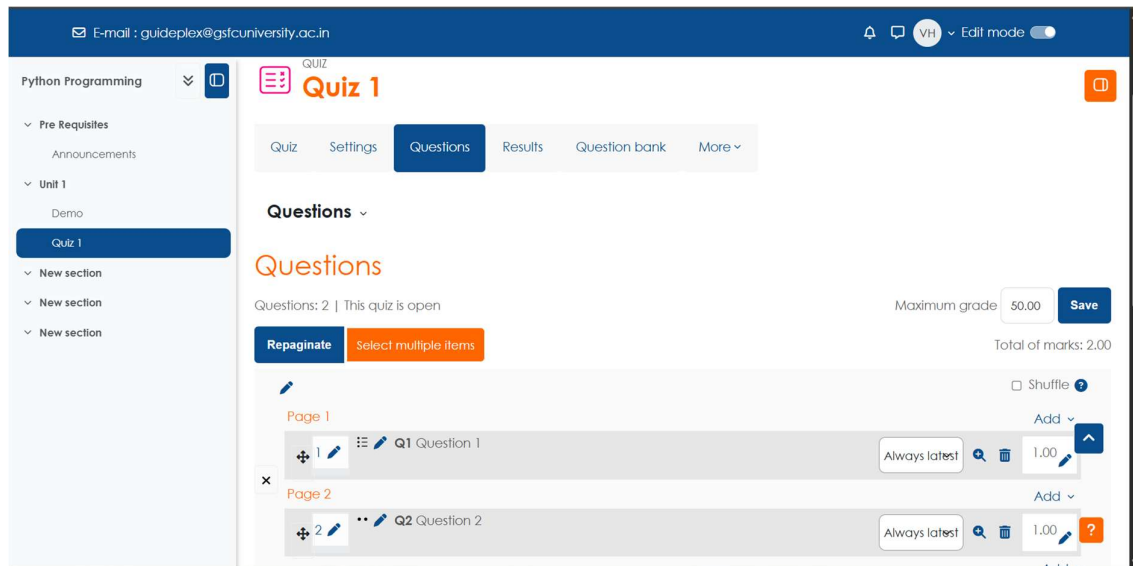

- For the multiple-choice question, for each option we can grade that option to Grade the correct option just do it to **100%** and for the options which are not correct leave it to none.

LearningPlex User Manual

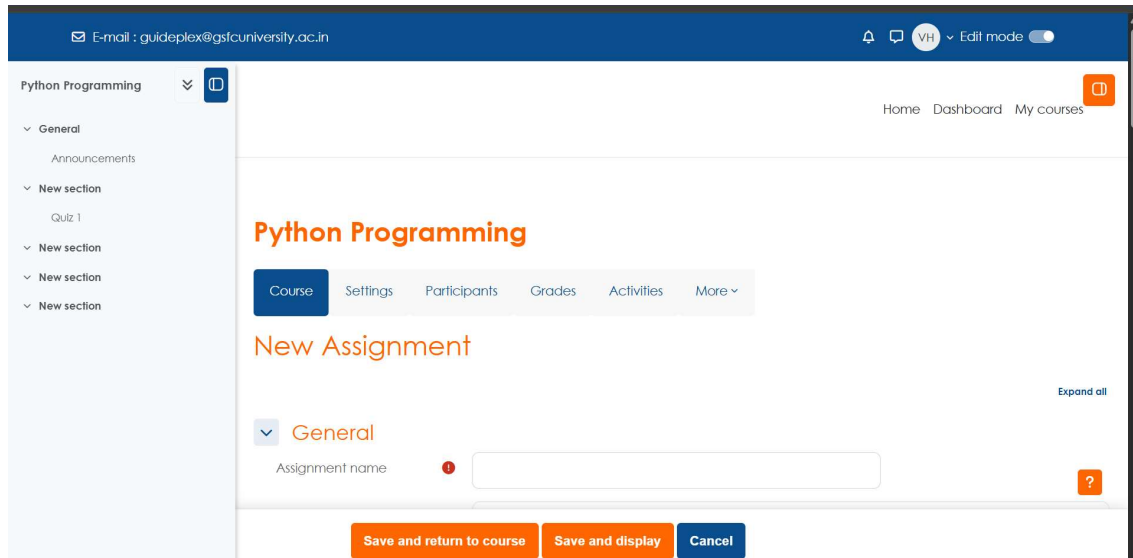

- At last, just do save changes and add all the question of same or different type with the same process. If you want to change the maximum grade so just rewrite the maximum grade and click save.

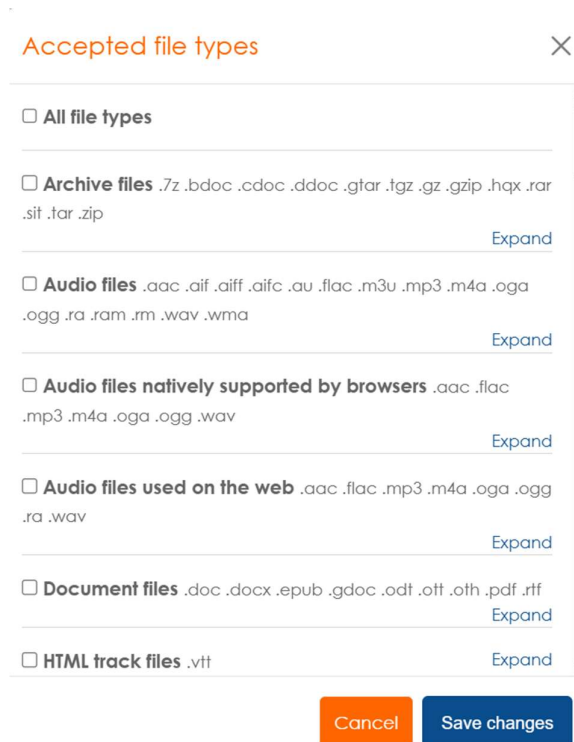

9. Assignment Creation

Firstly, add Assignment from Activity or resource (Explained on page no. 17)

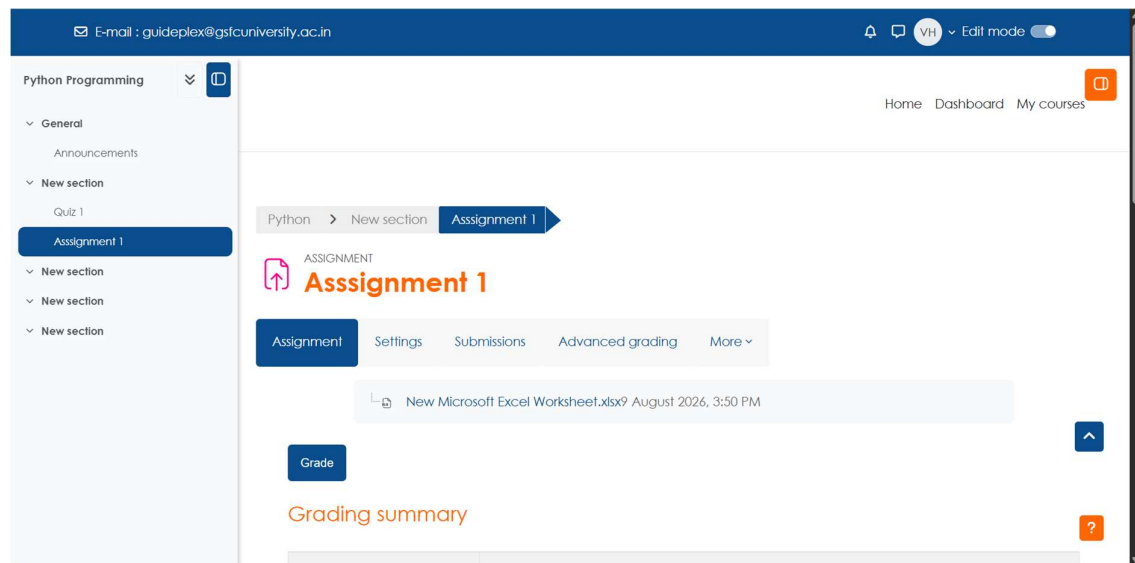

- Now configure the **Assignment** as per the need.

- Under Submission types select Accepted file type

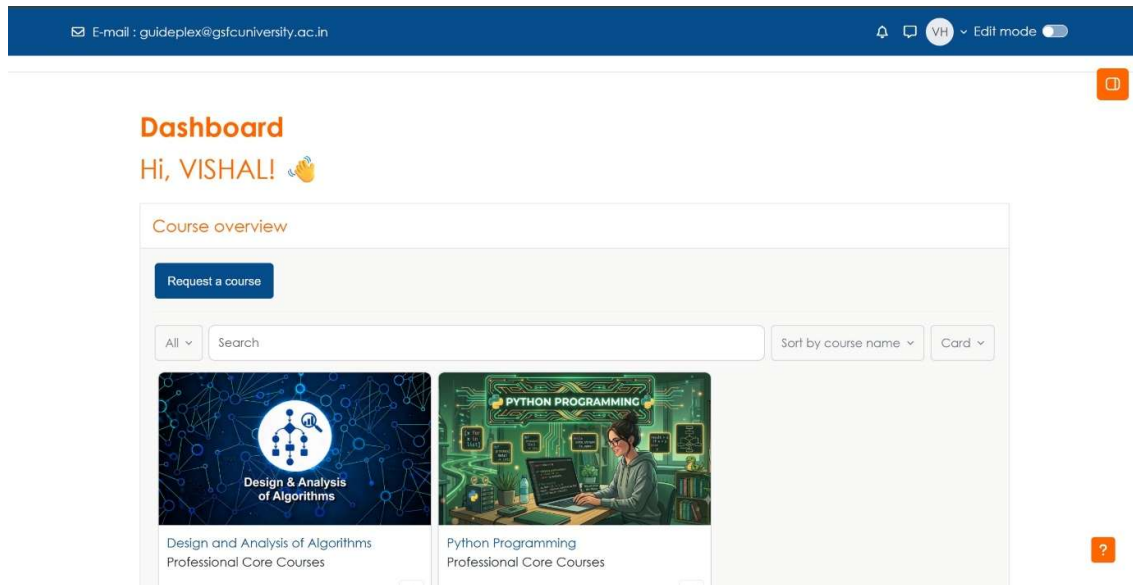

- After completion click on **Save and Display**

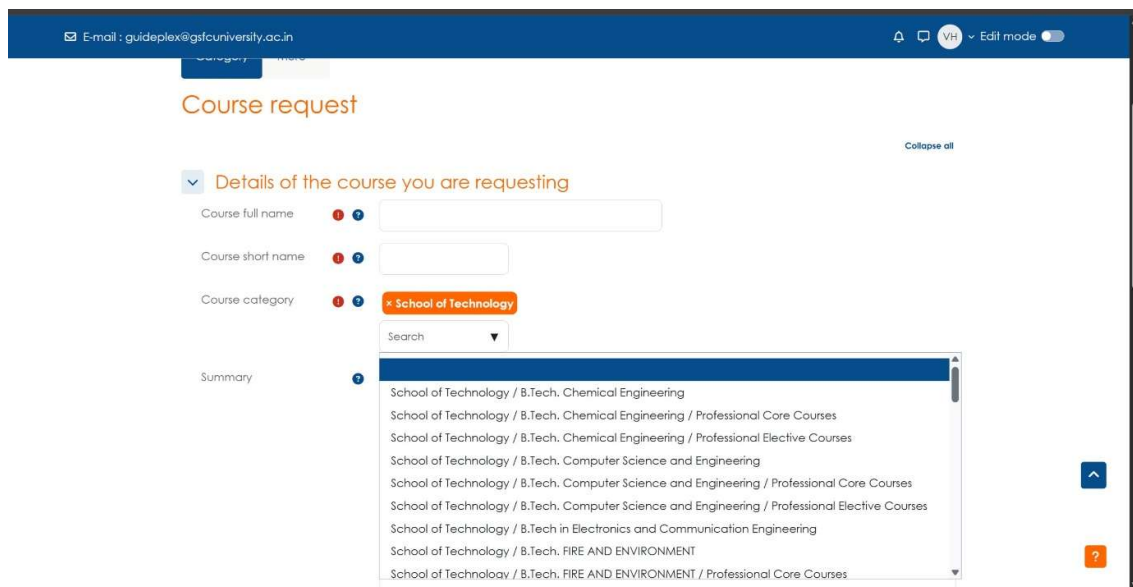

10. Request a Course

- Click on **Request Course**

- Fill the necessary details with the most appropriate Course category

- After filling up the details click on **Request a course**

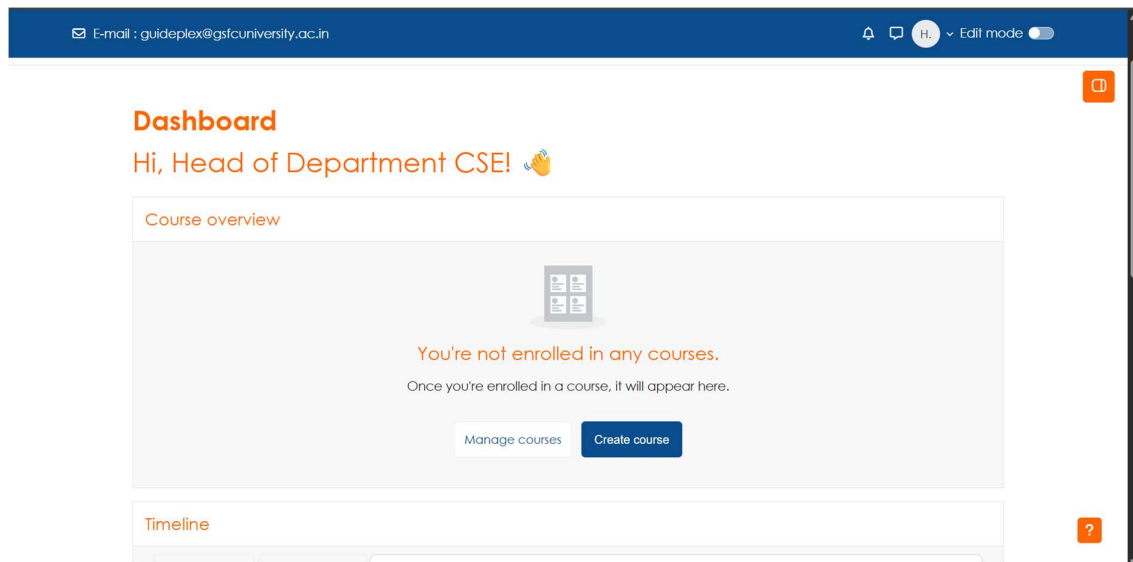

The screenshot shows a web form for requesting a course. At the top, a blue header bar contains the email 'E-mail : guideplex@gstfcuniversity.ac.in', a user profile icon labeled 'VH', and an 'Edit mode' toggle. Below the header is a large text area for details, currently showing 'p.' and '0 words'. A section titled 'Reasons for wanting this course' includes a sub-header 'Supporting information to help the administrator evaluate this request' and a large text box for input. At the bottom of the form are two buttons: 'Request a course' (orange) and 'Cancel' (blue). A vertical sidebar on the right contains an upward arrow and a question mark icon.

- After the course is approved by the higher roles it will display in the dashboard and then follow how to edit a course (explained on page no. 14)

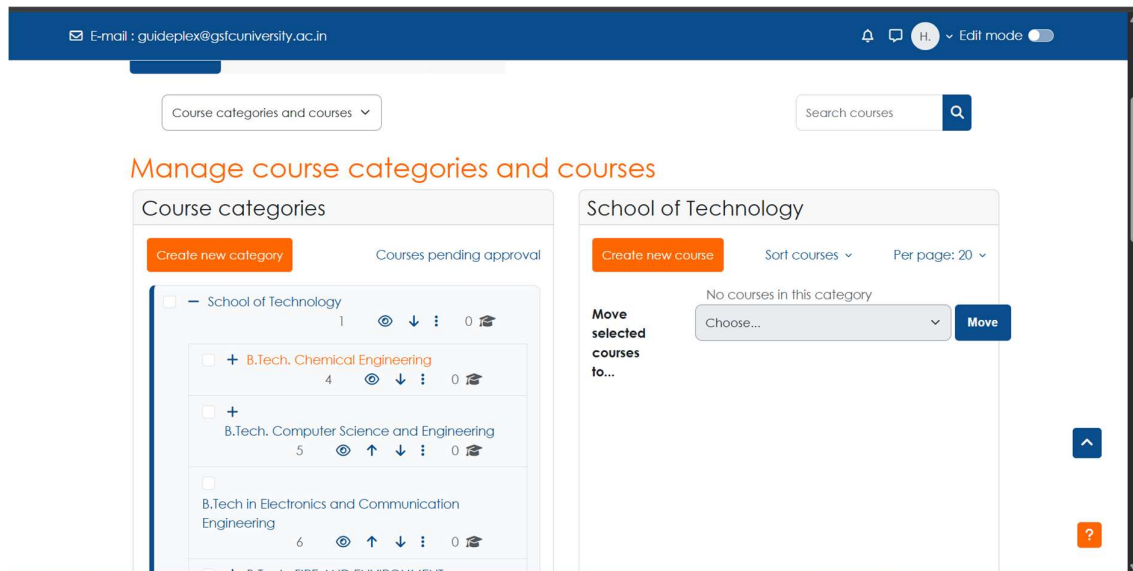

The screenshot displays the 'Course overview' dashboard. The top blue header bar is identical to the previous screenshot. Below the header, a greeting 'Hi, VISHAL!' with a hand icon is shown. A 'Request a course' button is visible. The main content area features a search bar with a dropdown menu set to 'All', a 'Sort by course name' dropdown, and a 'Card' view selector. Two course cards are displayed: 'Design and Analysis of Algorithms Professional Core Courses' with a blue geometric pattern, and 'Python Programming Professional Core Courses' with an illustration of a person coding. Each card has a three-dot menu icon at the bottom right. A vertical sidebar on the right contains an upward arrow and a question mark icon.

11. How to Approve a Pending Course Request?

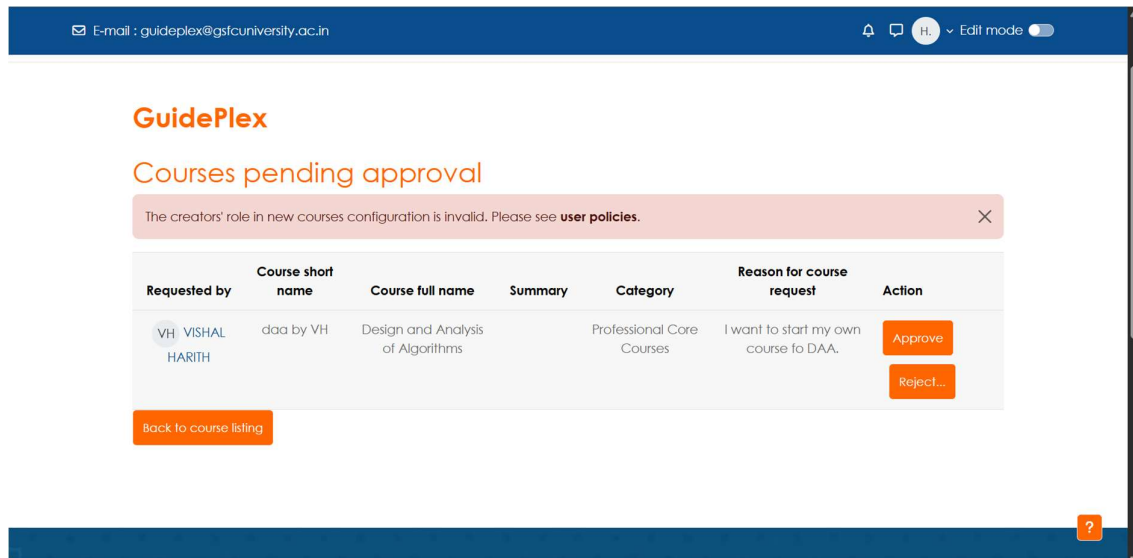

- Go to **Manage Courses**

- Now go to **courses pending approval**

- **Approve or reject the course**

a. If clicked on Approve

- Follow *Course Creation* (Explained on page no. 8 from step 2)

Note: If the course id already exists use the course id with the teacher initials.

General

Course full name: Design and Analysis of Algorithms

Course short name: daa by VH_1

Course category: x School of Technology / B.Tech. Computer Science and Engineering / Professional Core Courses

Course visibility: Show

Course start date: 9 August 2026 00:00

Course end date: ☐ Enable 9 August 2027 00:00

Course ID number: BTC501VH

[Save and return](#) [Save and display](#) [Cancel](#)

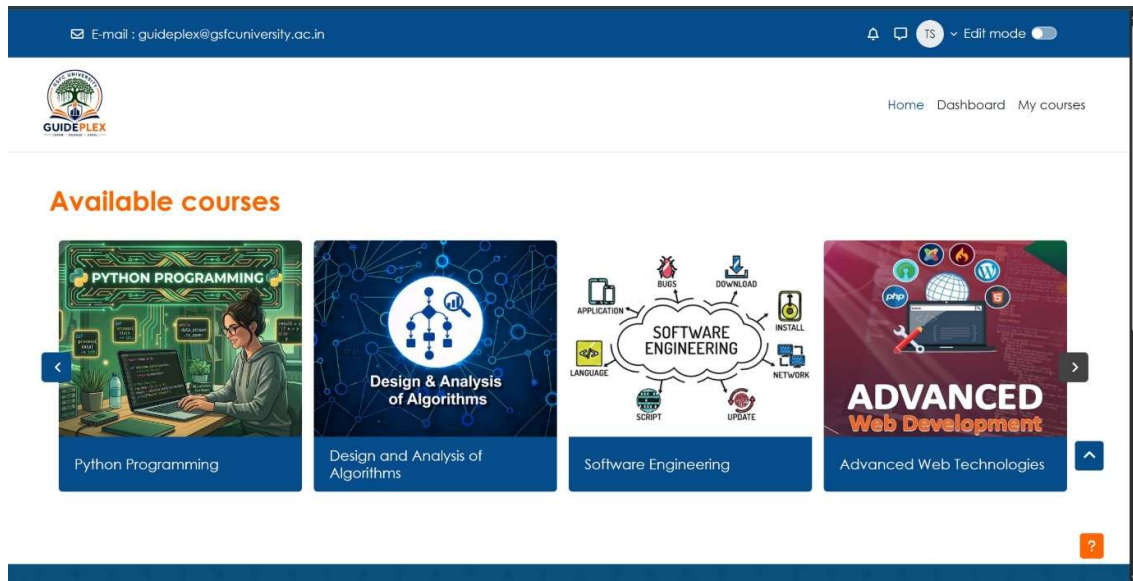

b. If clicked on Reject

- State the reasons and click on **reject**

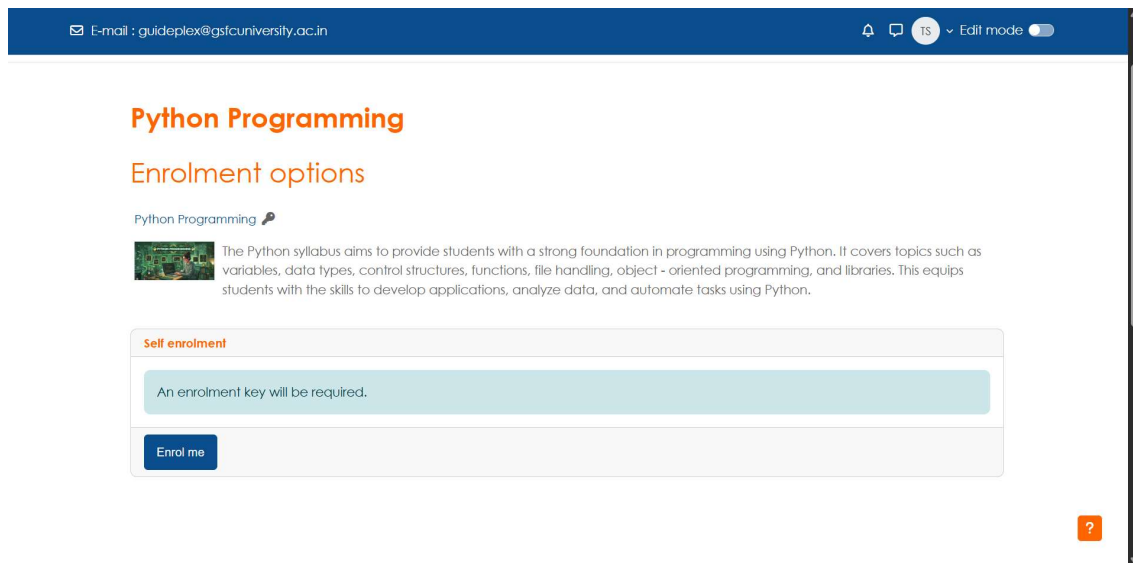

The screenshot shows the GuidePlex web application interface. At the top, a dark blue header bar contains the email address "E-mail : guideplex@gsfcuniversity.ac.in" on the left, and notification, chat, and user profile icons on the right, along with an "Edit mode" toggle switch. Below the header, the "GuidePlex" logo is displayed in orange. The main content area features a section titled "Your reasons for rejecting this request" with a dropdown arrow. Below this title, a note states "This will be emailed to the requester" with a red information icon. A large, empty text box is provided for entering reasons. At the bottom of the form, there are two buttons: "Reject" (orange) and "Cancel" (blue). In the bottom right corner of the form area, there is a red information icon and the word "Required". A small orange question mark icon is also visible in the bottom right corner of the form area.

12. How to participate in any course using self-enrolment key?

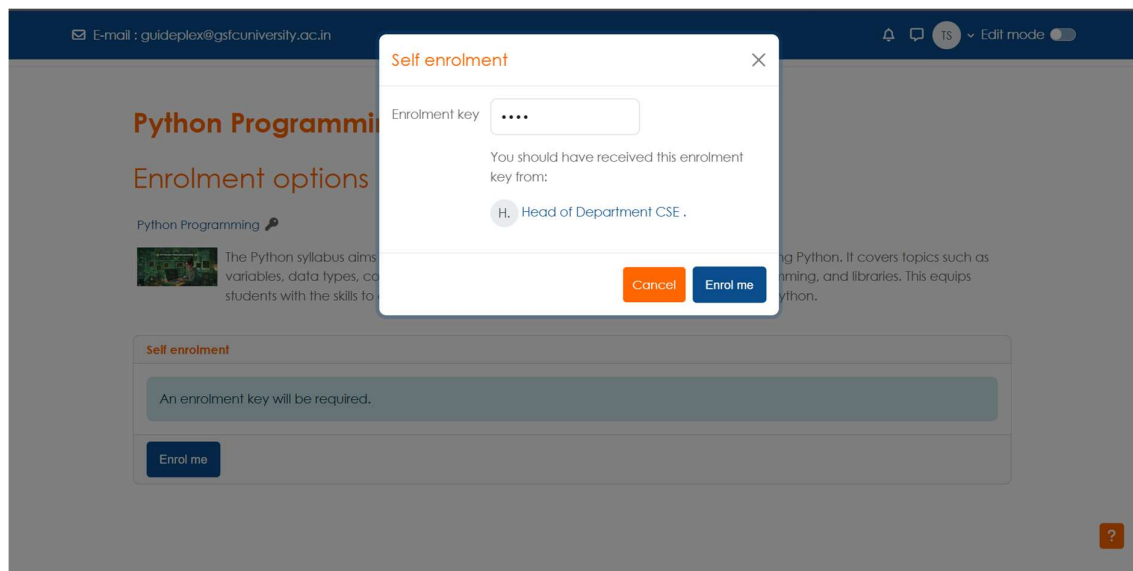

- Go to that course which you want to enrol

- Click on **Enrol me**

- Enter the **Enrolment key** and press **enrol me**

13. Feedback

Firstly, add feedback from Activity or resource (Explained on page no. 17)

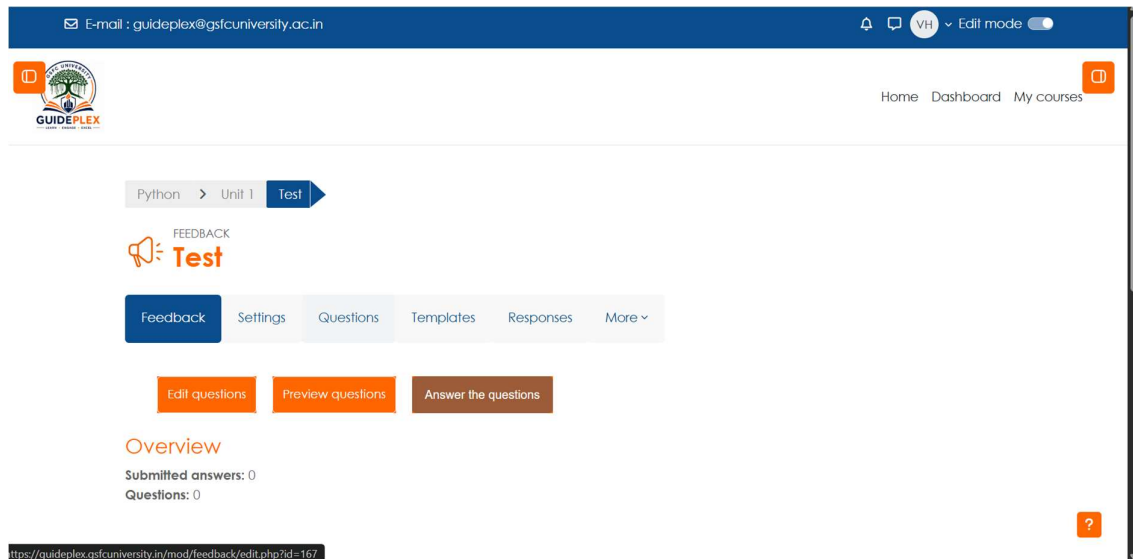

- Now configure the **Feedback** as per the need.

The screenshot shows the 'New Feedback' form in the LearningPlex interface. The top navigation bar includes the email 'E-mail : guideplex@gstcuniversity.ac.in' and a user profile 'VH' with an 'Edit mode' toggle. The left sidebar shows the course structure for 'Python Programming', including 'Pre Requisites', 'Unit 1' (with 'Demo', 'Quiz 1', and 'test'), and 'New section' options. The main content area is titled 'Python Programming' and has tabs for 'Course', 'Settings', 'Participants', 'Grades', 'Activities', and 'More'. The 'New Feedback' form is displayed with a 'General' tab selected. It includes a 'Name' field, a 'Description' field with a rich text editor (containing 'Edit', 'View', 'Insert', 'Format', 'Tools', 'Table', 'Help' menus and various formatting icons), and three buttons at the bottom: 'Save and return to course', 'Save and display', and 'Cancel'.

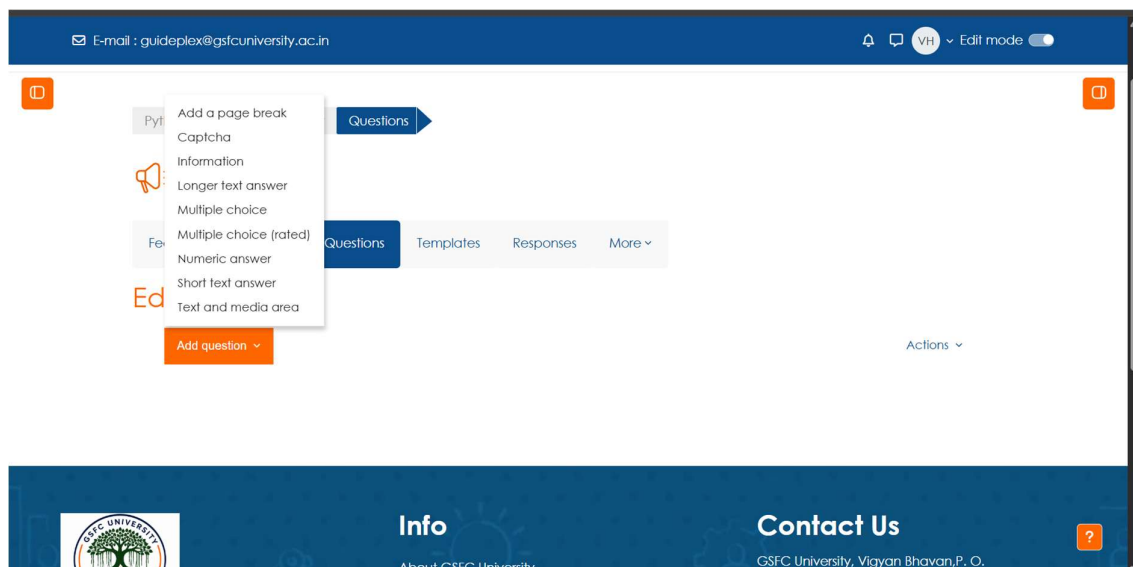

- Under **Questions and submission settings** select the following options from the dropdown of all the sub-settings

The screenshot shows the 'Question and submission settings' form in the LearningPlex interface. The top navigation bar is the same as the previous screenshot. The left sidebar is also the same. The main content area shows the 'Question and submission settings' tab selected. It includes a 'Display description on course page' checkbox. Below this, there are four settings: 'Record user names' (a dropdown menu showing 'User's name will be logged and shown with answers'), 'Allow multiple submissions' (a dropdown menu showing 'No'), 'Enable notification of submissions' (a dropdown menu showing 'No'), and 'Auto number questions' (a dropdown menu showing 'No'). At the bottom, there are three buttons: 'Save and return to course', 'Save and display', and 'Cancel'. There are also expandable sections for 'Availability', 'After submission', and 'Common module settings'.

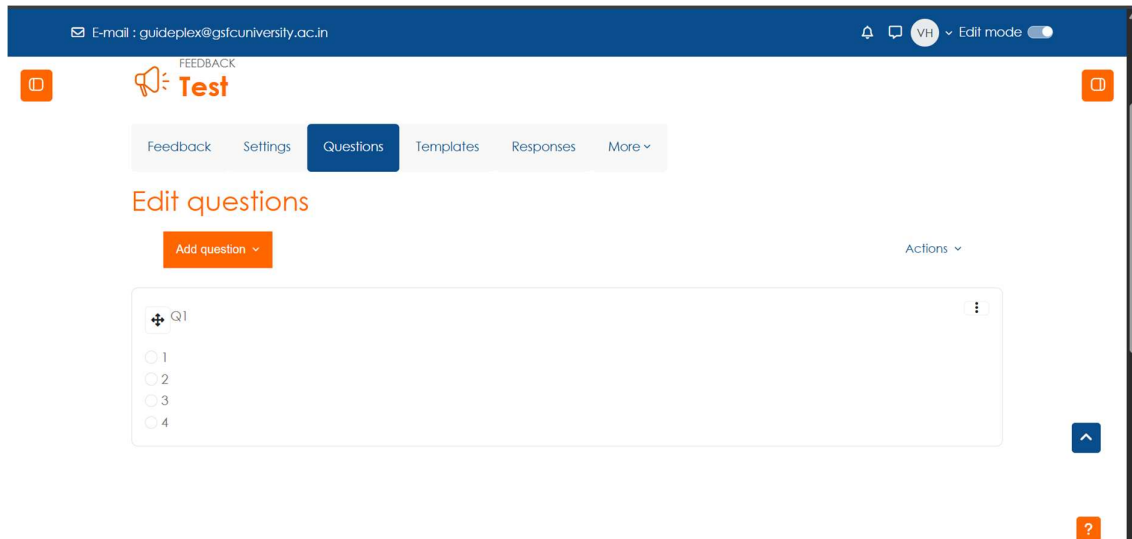

- After completing click on **Save and display**

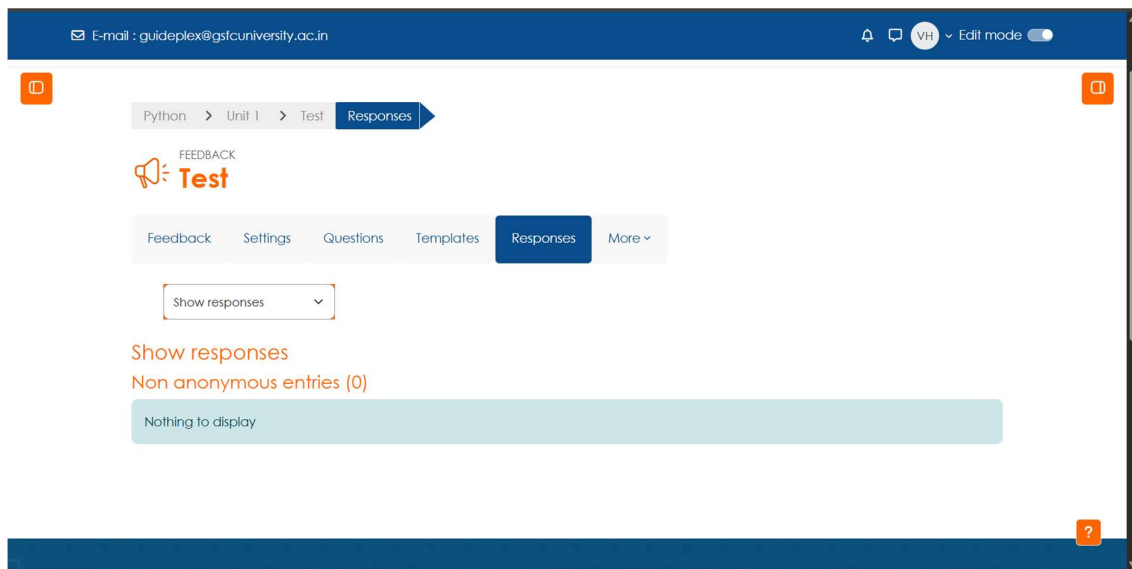

- Go to edit questions and then click on **add questions** and select the desire question type

- Add multiple questions of different or same question type with the same process

- Under **Responses** we can see the responses of the user

14. Forum

Firstly, add forum from Activity or resource (Explained on page no. 17)

- Now configure the **Forum** as per the need.

Save and return to course Save and display Cancel

- After completing click on **Save and Display**

The screenshot displays the LearningPlex user interface. At the top, a dark blue header bar contains the email address 'E-mail : guideplex@gstcuniversity.ac.in' on the left and a notification bell, a chat icon, a user profile icon labeled 'VH', and an 'Edit mode' toggle switch on the right. Below the header, the main content area has a light blue background and features four expandable sections: 'Restrict access', 'Completion conditions', 'Tags', and 'Competencies'. Each section is preceded by a right-pointing chevron icon. Below these sections, there is a checkbox labeled 'Send content change notification' with a help icon to its right. A red circular icon with an exclamation mark and the word 'Required' is positioned to the right of the checkbox. At the bottom of the main content area, there is a dark blue bar with a white upward-pointing chevron icon and an orange square icon with a white question mark. Below this bar, three buttons are visible: 'Save and return to course' (orange), 'Save and display' (dark blue, with a mouse cursor hovering over it), and 'Cancel' (blue). A vertical scrollbar is visible on the right side of the main content area.

17. Add Folder

Firstly, add Folder from Activity or resource (Explained on page no. 17)

- Fill the basic details and select files that you want to add in the folder

The first screenshot shows the 'New Folder' configuration screen. At the top, the email 'guideplex@gstcuniversity.ac.in' and 'Edit mode' toggle are visible. The 'General' tab is active, showing a 'Name' field with 'Study Material' and a 'Description' field with a rich text editor. The rich text editor has a toolbar with options like bold, italic, link, and list. Below the description field are three buttons: 'Save and return to course', 'Save and display', and 'Cancel'.

The second screenshot shows the 'Content' configuration screen. It features a 'Files' section with a file manager interface. The file manager shows five PDF files named 'DAA Unit 1...', 'DAA Unit 2...', 'DAA Unit 3...', 'DAA Unit 4...', and 'DAA Unit 5...'. A note indicates 'Maximum size for new files: 256 MB'. Below the file manager, there is a 'Display folder contents' dropdown set to 'On a separate page' and a checked option 'Show subfolders expanded'. The same three buttons ('Save and return to course', 'Save and display', 'Cancel') are at the bottom.

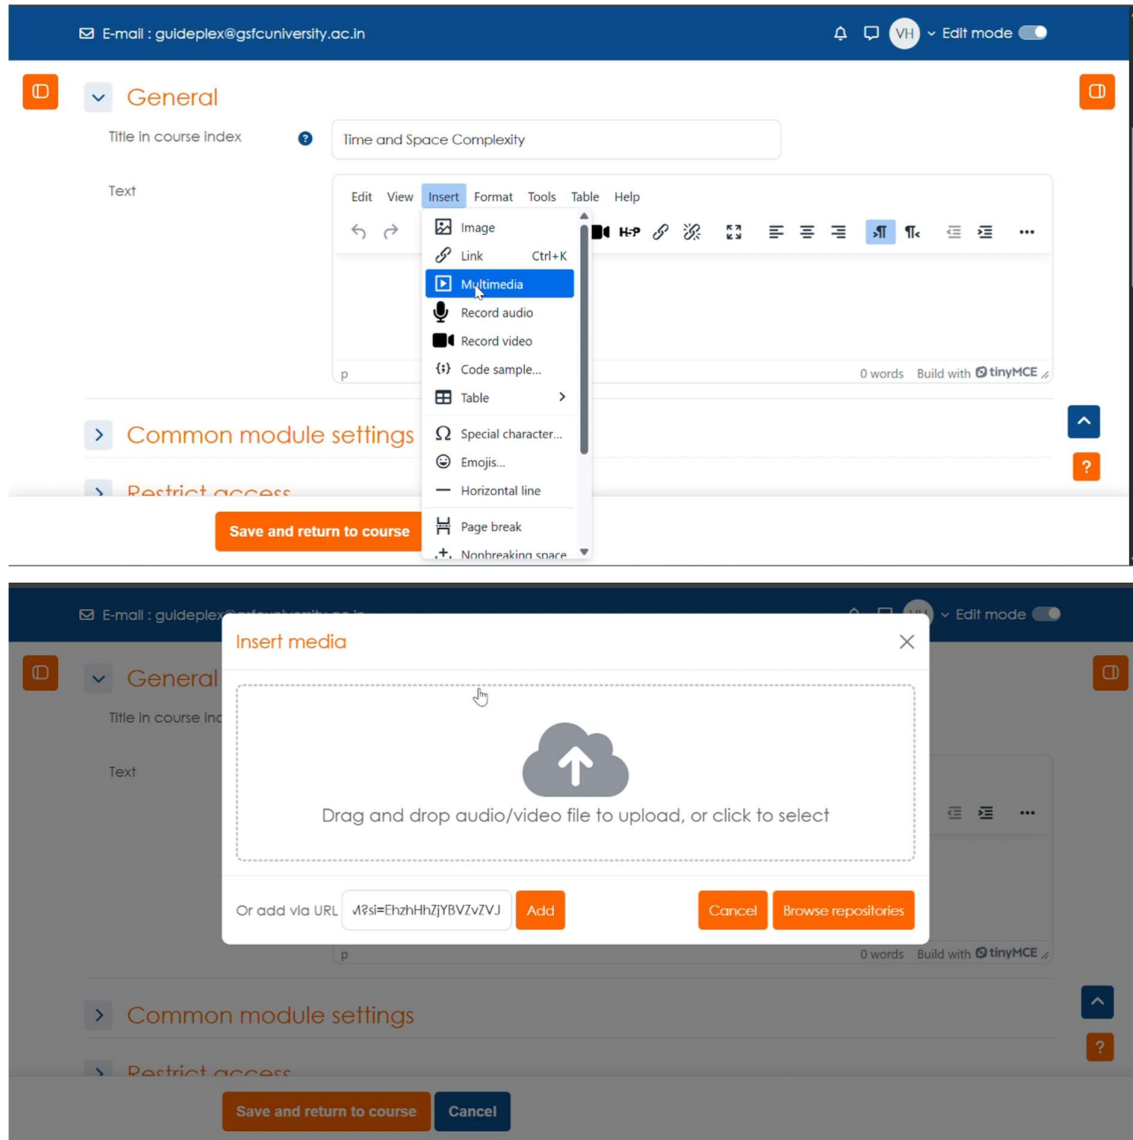

- After completing click on **Save and Display**

The screenshot shows a web interface for 'Common module settings'. At the top, a blue header bar contains an email address 'E-mail : guideplex@gstcuniversity.ac.in', a notification bell, a user profile icon labeled 'VH', and an 'Edit mode' toggle switch. Below the header, the main content area has a list of settings sections: 'Common module settings', 'Restrict access', 'Completion conditions', 'Tags', and 'Competencies'. Each section is preceded by a right-pointing chevron icon. At the bottom of the settings list, there is a checkbox labeled 'Send content change notification' with an information icon. On the right side of the form, there is a red circle with an exclamation mark and the word 'Required', a blue upward arrow button, and an orange question mark button. At the very bottom, there are three buttons: 'Save and return to course' (orange), 'Save and display' (dark grey, with a mouse cursor hovering over it), and 'Cancel' (blue).

18. Add Video using YouTube Link

Firstly, add Text and Media Area from Activity or resource (Explained on page no. 17)

- Fill the basic details and select multimedia and click add

- After completing click on **Save and return to course**

The screenshot displays the 'General' settings for a module in LearningPlex. At the top, a blue header bar contains the email 'E-mail : guideplex@gstcuniversity.ac.in' and a user profile 'VH' with an 'Edit mode' toggle. The main content area has a left sidebar with a 'General' tab selected. The 'Title in course index' field is set to 'Time and Space Complexity'. Below this is a 'Text' field containing a YouTube link: <https://youtu.be/PwKv8fOcniM?si=EhzhHhZjY8VZvZVl>. A rich text editor toolbar is visible above the text field. At the bottom, there are two buttons: 'Save and return to course' (orange) and 'Cancel' (blue).
